

# ICSR 2013

international conference on social robotics / 27-29 October 2013, Bristol, UK

COMPANIONSHIP

## General Chair

Guido Herrmann,  
University of Bristol.

Alois Knoll,  
Technische Universität München

## Honorary Chair

Chris Melhuish,  
Bristol Robotics Laboratory.

## Program Chair

Martin Pearson,  
Bristol Robotics Laboratory.

Peter Ford Dominey  
Inserm - Stem Cell and Brain Research Institute

## Organising Chair

Alexander Lenz,  
Bristol Robotics Laboratory.

Hong Sheng He,  
NUS.

## Publicity Chair

Praminda Caleb-Solly,  
Bristol Robotics Laboratory.

Martin Saerbeck,  
Institute of High Performance Computing,  
Singapore.

## Awards Chair

Kerstin Dautenhahn,  
University of Hertfordshire.

Reid Simmons  
Carnegie Mellon University

## Special Sessions Chair

Giorgio Metta,  
IIT, Genoa.

## Panel Discussions Chair

Anthony Pipe,  
Bristol Robotics Laboratory.

Verena Hafner,  
Humboldt-Universität zu Berlin.

## Workshop Chair

Ute Leonards  
University of Bristol.

Mary-Anne Williams  
University of Technology, Sydney.

## Competition Chair

Ho Seok Ahn,  
ATR International Robotics and Communication  
Laboratories, Japan.

## Standing Committee

Shuzhi Sam Ge,  
National University of  
Singapore, and UESTC.

Oussama Khatib,  
Stanford University.

Maja Mataric,  
University of South California.

Haizhou Li,  
A\*Star.

Jong-Hwan Kim,  
KAIST.

Paolo Dario,  
Scuola Superiore Sant'Anna.

Ron Arkin,  
Georgia Institute of Technology

## ICSR2013 Theme: COMPANIONSHIP

The International Conference on Social Robotics (ICSR) brings together researchers and practitioners working on the interaction between humans and robots and on the integration of robots into our society. The theme of the 2013 conference is "Companionship". Robots will improve quality of human life through assistance, enabling for instance independent living or providing support in work-intensive, difficult and possibly complex situations. The conference aims to foster discussion on the development of computational models, robotic embodiments, and behaviour that enable social robots to have an impact on the degree of companionship with humans.

The conference welcomes original contributions describing technically rigorous scientific and philosophical advances in the area of social robotics: Innovative ideas and concepts, new discoveries and improvements, novel applications on the latest fundamental advances in the core technologies that form the backbone of social robotics, distinguished developmental projects, as well as seminal works in aesthetic design, ethics and philosophy, studies on social impact and influence pertaining to social robotics, and its interaction and communication with human beings and its social impact on our society.

The topics of interest include, but are not limited to the following:

- Interaction and collaboration among robots, humans, and environments
- Robots to assist the elderly and persons with disabilities
- Socially assistive robots to improve quality of life
- Affective and cognitive sciences for socially interactive robots
- Personal robots for the home
- Social acceptance and impact in the society
- Robot ethics in human society
- Context awareness, expectation, and intention understanding
- Control architectures for social robotics
- Socially appealing design methodologies
- Safety in robots working in human spaces
- Human augmentation, rehabilitation, and medical robots
- Robot applications in education, entertainment, and gaming

## IMPORTANT DATES/DEADLINES

Invited Session Proposal Submission:	July 3, 2013
Regular/Invited Paper Submission:	July 3, 2013
Demonstration Proposal Submission:	July 3, 2013
Notification of Paper Acceptance:	August 28, 2013
Final Manuscript Submission:	September 6, 2013
Registration, Social Tour and Reception Party:	October 27, 2013
Conference:	October 27-29, 2013

## SUBMISSION OF PAPERS

Submissions must be made in the PDF format and follow the Springer LNCS/LNAI style for the layout. LNCS style templates are available on the Springer LNCS website. Manuscripts are limited to ten (10) A4 size papers. Detailed instructions for paper submission are available at <http://www.icsr2013.org.uk>. All papers will be refereed by the program committee.

## EXHIBITIONS

Participants who would like to exhibit their interactive demonstrations at the conference site please prepare 1 page summary about the demonstration and email [secretary.icsr2013@brl.ac.uk](mailto:secretary.icsr2013@brl.ac.uk). Exhibition booth will be allocated to demonstrations approved by the ICSR2013 organizing committee.

## ROBOT DESIGN COMPETITION

There will be a competition to draw creative ideas on industrial designs in social or service robotics. Prizes will be awarded to the shortlisted designs.

## WORKSHOP

Participants are invited to hold a full/half day workshop on 27 October 2013 on a topic relevant to social robotics and the general theme 'Companionship'. Outlines of intended workshops are to be submitted by **6 September 2013**.

## Online Info

Information about the submission of proposals, templates and arrangement information are available at the conference's website <http://www.icsr2013.org.uk>. We look forward to meeting you at ICSR 2013 in Bristol.
